

Leon Jäkel

Senior Software Engineer · Unit Multiplier for AI Development, adesso SE

AUGSBURG, GERMANY · JKEL.IO · LINKEDIN.COM/IN/JKELIO · GITHUB.COM/JKELIO

● PROFILE

Full-stack engineer with 10+ years of web-based product development in regulated industries — insurance, banking, energy. Frontend-strong (TypeScript, Angular, Vue, React) with solid backend depth (Java/Spring Boot, Node.js, Python). As Unit Multiplier for AI Development in adesso's Insurance Business Line, I bring agentic engineering — Spec-Driven Development with Claude Code and MCP integrations — into live enterprise delivery and turn what works into practices whole teams can copy.

● SELECTED PROJECTS

Global Offer Management – Allianz SE

SINCE 12/2024

Senior Full-Stack Engineer, SDW tribe · Claude Code in enterprise production

Core module of Allianz's new global sales platform, configured and deployed per country by international teams. Driving Spec-Driven Development with Claude Code and MCP integrations in daily delivery: specs become the contract, agents do the mechanical work, engineers review, decide, and ship.

- Microfrontend implementation for the offer management module; reusable UI components adopted across teams
- Angular upgrades across every major release from 17 through 22 on a live platform
- Agentic QA ahead of every pull request — a silent CI gap and an architecture flaw caught before the first line of code

TYPESCRIPT · ANGULAR · JAVA · SPRING BOOT · CAMUNDA · APACHE KAFKA · POSTGRESQL · KUBERNETES · AWS · CLAUDE CODE

Insurance Software Modernization – Swiss Life Deutschland

07/2022 – 08/2024

Full-Stack Engineer

Migrated debt-collection (Inkasso/Exkasso) and pension-administration applications from Oracle Forms to decoupled modern web apps: business process analysis, frontend and backend development, code reviews, and mentoring of junior developers across a two-year engagement.

JAVA · SPRING BOOT · VUE · TYPESCRIPT · ORACLE DB · OPENAPI

Automated Document Analysis – Allianz SE

07/2021 – 10/2022

Lead Frontend Developer

Web applications automating the analysis, evaluation, and comparison of underwriting documents — rolled out globally across the Allianz Group. Built the canvas-based document viewer at the heart of the product, designed the component architecture and REST APIs with the backend team, and onboarded the developers joining the project.

VUE · ANGULAR · NODE.JS/NESTJS · PYTHON (FASTAPI) · MONGODB · KUBERNETES · AZURE AKS

CAPRI – Infineon Technologies

09/2024 – 12/2024

Software Engineer, DevOps

Cross-department platform linking market observation with product development: sustaining engineering, Angular 17→18 upgrade, release management on OpenShift, code reviews.

NESTJS · ANGULAR · PRISMA · TYPEORM · OPENSIFT

Dependency-Analysis Tool – SAP SE

05/2020 – 06/2021

Software Engineer

Analysis of commercial and open-source dependencies against compliance rules; introduced result persistence in a Kubernetes-orchestrated environment and evolved a monolith toward a microservice-like architecture.

JAVA · JERSEY · POSTGRESQL · APACHE LUCENE · KUBERNETES · DOCKER

● EARLIER WORK (2013 – 2021)

- **Conversational AI / chatbots (2017–2021):** development lead for MS Bot Framework / Azure chatbots relieving customer service at four German utilities — meter-reading capture with OCR, account queries, EV charging-station search; cloud architecture, web-chat UI, SAP integration, DevOps.
- **UI framework for banking (2018–2019):** Web-Components-based stateless renderer replacing a Vaadin UI at Fiducia & GAD; widgets, JSON rendering protocol, WebSockets, CI/CD on OpenShift.
- **Corporate & customer portals (2013–2020):** customer self-service portals and mobile apps for utilities (SAP CRM/IS-U/UCES), Telefónica corporate inhouse app (Ionic/Angular), energy-monitoring data visualization (Vue, D3), e-commerce UI at Verlagsgruppe Weltbild.

● AI MULTIPLICATION & COMMUNITY

- Organizer of a genAI hackathon in Munich (July 2026) — hands-on agentic workflows for dozens of adesso engineers
- AI-Bites: live visualization system as a Microsoft Teams tab for AI learning moments
- Hackathon regular since 2017 — 2nd place & Community Prize, iHack.Ruhr 2018; Hackerkiste (4×), Code Days, AUXHACK, AWS Dev Days
- Technical mentoring, pair programming, and developer onboarding on every project — incl. adesso BOOKR (since 2023)

● SKILLS

AI / Agentic	Claude Code, Spec-Driven Development, MCP, multi-agent workflows, MS Bot Framework, Azure Cognitive Services
Frontend	TypeScript, Angular, Vue, React, Web Components, microfrontends, D3/Highcharts
Backend	Java, Spring Boot, Node.js/NestJS, Python (FastAPI), Camunda, Apache Kafka, REST/OpenAPI
Data	PostgreSQL, MongoDB, Oracle DB, Redis, Liquibase
Cloud & Ops	Kubernetes, Docker, Helm, AWS, Azure, OpenShift, Jenkins, CI/CD
Quality	Clean Code/SOLID, TDD, test automation, code reviews, Scrum/Kanban

● CAREER

SINCE 07/2021	Senior Software Engineer, adesso SE
2017 – 2021	IT Consultant, sparqs solutions
2015 – 2017	IT Consultant, Power Reply
2011 – 2015	Working student, Weltbild & Mietservice 2000

● EDUCATION & CERTIFICATES

B.Sc. Business Information Systems
Hochschule Augsburg, 2010 – 2015
iSAQB® CPSA-F · ISTQB® Certified Tester (CTFL)
German (native) · English (C1) · French (basics)
